04

What the casting process looks like

01

Talent Search & Auditions

Auditions are uploaded to an online link that you can view and make your selections. We pre-screen talents availability for all production dates this includes callbacks, fittings, and shoot dates.

02

Callbacks

If your project requires a callback session. We can do it in person or virtual. Virtual callback sessions are still recorded and uploaded to a new callback link. Callbacks are a great way to work with the actor or redirect them.

03

Booking Information

Once you have selected whom you would like to cast we create a cast list with contact info and clothing sizes. At this point, you can interact with talent directly or casting can send set information. Either way is fine but we ask you to copy casting so we know the information has been sent out.

04

Payment for Services

Once casting is completed we will send in our invoice and W-9. Payment is due net 30 days.
